

Protocol ONC-2025-101

A Randomized Phase III Study of Investigational Agent XR-9 in Advanced Solid Tumors

Section 1. Background and Rationale

This section is provided for background and does not contain eligibility criteria. It describes the scientific rationale, dosing schedule, pharmacokinetic sampling, statistical analysis plan, and administrative procedures in the level of detail typical of a full trial protocol. This section is provided for background and does not contain eligibility criteria. It describes the scientific rationale, dosing schedule, pharmacokinetic sampling, statistical analysis plan, and administrative procedures in the level of detail typical of a full trial protocol. This section is provided for background and does not contain eligibility criteria. It describes the scientific rationale, dosing schedule, pharmacokinetic sampling, statistical analysis plan, and administrative procedures in the level of detail typical of a full trial protocol. This section is provided for background and does not contain eligibility criteria. It describes the scientific rationale, dosing schedule, pharmacokinetic sampling, statistical analysis plan, and administrative procedures in the level of detail typical of a full trial protocol. This section is provided for background and does not contain eligibility criteria. It describes the scientific rationale, dosing schedule, pharmacokinetic sampling, statistical analysis plan, and administrative procedures in the level of detail typical of a full trial protocol. This section is provided for background and does not contain eligibility criteria. It describes the scientific rationale, dosing schedule, pharmacokinetic sampling, statistical analysis plan, and administrative procedures in the level of detail typical of a full trial protocol. This section is provided for background and does not contain eligibility criteria. It describes the scientific rationale, dosing schedule, pharmacokinetic sampling, statistical analysis plan, and administrative procedures in the level of detail typical of a full trial protocol.

Section 2. Study Objectives and Endpoints

This section is provided for background and does not contain eligibility criteria. It describes the scientific rationale, dosing schedule, pharmacokinetic sampling, statistical analysis plan, and administrative procedures in the level of detail typical of a full trial protocol. This section is provided for background and does not contain eligibility criteria. It describes the scientific rationale, dosing schedule, pharmacokinetic sampling, statistical analysis plan, and administrative procedures in the level of detail typical of a full trial protocol. This section is provided for background and does not contain eligibility criteria. It describes the scientific rationale, dosing schedule, pharmacokinetic sampling, statistical analysis plan, and administrative procedures in the level of detail typical of a full trial protocol. This section is provided for background and does not contain eligibility criteria. It describes the scientific rationale, dosing schedule, pharmacokinetic sampling, statistical analysis plan, and administrative procedures in the level of detail typical of a full trial protocol. This section is provided for background and does not contain eligibility criteria. It describes the scientific rationale, dosing schedule, pharmacokinetic sampling, statistical analysis plan, and administrative procedures in the level of detail typical of a full trial protocol. This section is provided for background and does not contain eligibility criteria. It describes the scientific rationale, dosing schedule, pharmacokinetic sampling, statistical analysis plan, and administrative procedures in the level of detail typical of a full trial protocol.

Section 3. Study Design

[illegible]

Section 4. Investigational Product and Dosing

This section is provided for background and does not contain eligibility criteria. It describes the scientific rationale, dosing schedule, pharmacokinetic sampling, statistical analysis plan, and administrative procedures in the level of detail typical of a full trial protocol. This section is provided for background and does not contain eligibility criteria. It describes the scientific rationale, dosing schedule, pharmacokinetic sampling, statistical analysis plan, and administrative procedures in the level of detail typical of a full trial protocol. This section is provided for background and does not contain eligibility criteria. It describes the scientific rationale, dosing schedule, pharmacokinetic sampling, statistical analysis plan, and administrative procedures in the level of detail typical of a full trial protocol. This section is provided for background and does not contain eligibility criteria. It describes the scientific rationale, dosing schedule, pharmacokinetic sampling, statistical analysis plan, and administrative procedures in the level of detail typical of a full trial protocol. This section is provided for background and does not contain eligibility criteria. It describes the scientific rationale, dosing schedule, pharmacokinetic sampling, statistical analysis plan, and administrative procedures in the level of detail typical of a full trial protocol. This section is provided for background and does not contain eligibility criteria. It describes the scientific rationale, dosing schedule, pharmacokinetic sampling, statistical analysis plan, and administrative procedures in the level of detail typical of a full trial protocol.

Section 5. Study Population and Eligibility

5.1 Inclusion Criteria

To be eligible, patients must meet all of the following:

1. Age ≥ 18 years.
2. Histologically or cytologically confirmed advanced solid tumor.
3. ECOG performance status ≤ 1 .
4. Estimated glomerular filtration rate ≥ 60 mL/min/1.73m².
5. Absolute neutrophil count $\geq 1.5 \times 10^9$ /L.
6. Platelet count $\geq 100 \times 10^9$ /L.
7. Left ventricular ejection fraction $\geq 45\%$.

5.2 Exclusion Criteria

Patients meeting any of the following are excluded:

1. Prior platinum chemotherapy within 6 months.
2. Systolic blood pressure > 170 mmHg.
3. Diastolic blood pressure > 110 mmHg.
4. Women of childbearing potential who are pregnant or breastfeeding.

Section 6. Statistical Considerations

This section is provided for background and does not contain eligibility criteria. It describes the scientific rationale, dosing schedule, pharmacokinetic sampling, statistical analysis plan, and administrative procedures in the level of detail typical of a full trial protocol. This section is provided for background and does not contain eligibility criteria. It describes the scientific rationale, dosing schedule, pharmacokinetic sampling, statistical analysis plan, and administrative procedures in the level of detail typical of a full trial protocol. This section is provided for background and does not contain eligibility criteria. It describes the scientific rationale, dosing schedule, pharmacokinetic sampling, statistical analysis plan, and administrative procedures in the level of detail typical of a full trial protocol. This section is provided for background and does not contain eligibility criteria. It describes the scientific rationale, dosing schedule, pharmacokinetic sampling, statistical analysis plan, and administrative procedures in the level of detail typical of a full trial protocol. This section is provided for background and does not contain eligibility criteria. It describes the scientific rationale, dosing schedule, pharmacokinetic sampling, statistical analysis plan, and administrative procedures in the level of detail typical of a full trial protocol. This section is provided for background and does not contain eligibility criteria. It describes the scientific rationale, dosing schedule, pharmacokinetic sampling, statistical analysis plan, and administrative procedures in the level of detail typical of a full trial protocol.

Section 7. Safety Monitoring and Adverse Event Reporting

[illegible]

Section 8. Ethics, Consent, and Regulatory

This section is provided for background and does not contain eligibility criteria. It describes the scientific rationale, dosing schedule, pharmacokinetic sampling, statistical analysis plan, and administrative procedures in the level of detail typical of a full trial protocol. This section is provided for background and does not contain eligibility criteria. It describes the scientific rationale, dosing schedule, pharmacokinetic sampling, statistical analysis plan, and administrative procedures in the level of detail typical of a full trial protocol. This section is provided for background and does not contain eligibility criteria. It describes the scientific rationale, dosing schedule, pharmacokinetic sampling, statistical analysis plan, and administrative procedures in the level of detail typical of a full trial protocol. This section is provided for background and does not contain eligibility criteria. It describes the scientific rationale, dosing schedule, pharmacokinetic sampling, statistical analysis plan, and administrative procedures in the level of detail typical of a full trial protocol. This section is provided for background and does not contain eligibility criteria. It describes the scientific rationale, dosing schedule, pharmacokinetic sampling, statistical analysis plan, and administrative procedures in the level of detail typical of a full trial protocol. This section is provided for background and does not contain eligibility criteria. It describes the scientific rationale, dosing schedule, pharmacokinetic sampling, statistical analysis plan, and administrative procedures in the level of detail typical of a full trial protocol.

Section 9. Data Management

This section is provided for background and does not contain eligibility criteria. It describes the scientific rationale, dosing schedule, pharmacokinetic sampling, statistical analysis plan, and administrative procedures in the level of detail typical of a full trial protocol. This section is provided for background and does not contain eligibility criteria. It describes the scientific rationale, dosing schedule, pharmacokinetic sampling, statistical analysis plan, and administrative procedures in the level of detail typical of a full trial protocol. This section is provided for background and does not contain eligibility criteria. It describes the scientific rationale, dosing schedule, pharmacokinetic sampling, statistical analysis plan, and administrative procedures in the level of detail typical of a full trial protocol. This section is provided for background and does not contain eligibility criteria. It describes the scientific rationale, dosing schedule, pharmacokinetic sampling, statistical analysis plan, and administrative procedures in the level of detail typical of a full trial protocol. This section is provided for background and does not contain eligibility criteria. It describes the scientific rationale, dosing schedule, pharmacokinetic sampling, statistical analysis plan, and administrative procedures in the level of detail typical of a full trial protocol.
